

"WHERE YOUR CHILD ALWAYS COMES FIRST!"

Parents, we hope that everyone has had the opportunity to register and browse around the Teaching Strategies GOLD website. If you have not been invited please check with your child's teacher or Mr. Robert to ensure that we have the correct email address on file. Reminder: Tuition payments are due on time. Any payments made after your due date will result in a late fee added to your current amount. All teachers have envelopes for payments so feel free to ask for one. Envelopes have to be handed to a teacher. In addition, we are still currently working with TeachingStrategies.com to fix the issues that are occurring with logging on to view/check your child's assessments, pictures and documentations as well as lesson plans, school info and newsletters posted to the site. We are sorry if this problem has caused any inconvenience. Please feel free to contact your child's teacher or the Director for information.

Past/Current Events

The month of May was filled with rain showers and drastic weather changes. Please make sure to dress your child in appropriate clothing as well as an extra set in their cubby box. **This month is Graduation month!**

Kindergarten Koalas

For the month of June we will begin by focusing on a Bugs/Insects theme. This should be tons of fun as the children will get to play with dirt and explore different habitats. Many bugs will be discussed and the children will also have the opportunity to try and create a world of bugs around our classroom. We have gone over many things this year and have learned tons. All of our children should be ready for 1st grade in the fall. Math concepts as well as our phonics and word recognition has greatly improved. We are continuing to work on our behavior and self-control. There is no more homework being given as we review a large portion of skills during our class daily. Fathers Day is June 19th therefore we will be creating gifts. **Graduation is June 24th.** Parents please be aware that your child **must** be picked up by **3pm** on that day. Ms. Jane

Lions Classroom

Hi Parents!
May has flown by! Our bugs and insects theme was a hit; the students really enjoyed being bug detectives. They have also been practicing the alphabet, along with their sounds, numbers 1-25 and using our words to communicate feelings. I am so happy with the progress we have made this month. In June we will have fun being pirates on a hunt for treasure and we will also learn about the ocean. Before my employment, I scheduled a trip out of the country for one month. There will be a substitute teacher with the class while I am gone. Any questions please ask me.
Best Wishes, Ms. Mari

Peanuts Classroom

Dear Parents,

For the month of June we will have many fun summer activities planned. We will be learning about the ocean. We will be practicing our cooking skills and we will be learning about different careers. We will still be practicing counting, letters, colors and shapes.

A couple of reminders, please bring your child in by 9:30a.m. It is important that they get here by then because our cook does a head count of all the children. Please do not bring your child with food into the classroom. They cannot bring in food because there is other children in our class that may be allergic to certain foods. Lastly, please dress your child in appropriate clothing and shoes and please check your child's box frequently for any projects, pictures, home toys and if they need to restock their clothing items.

Thank you,
Ms. Megan & Ms. Joannie

Bears Classroom

For the month of June we will continue with our opposites and begin reviewing our positions-inside/outside, back/front and above/below. We will also be talking about summer and discussing what happens in the summer. We will be creating art using sand, rocks, seashells and paint. We will be making our own sandcastles for display. Our gross motor play outside will continue daily as well as beginning water play. We also will be creating Fathers day gifts. Ms. Taga

Dragons Classroom

Dear Parents, Summer is here and the fun is just beginning. This June we will be studying ocean life. We will learn what lives in the ocean and how they survive. We will be talking about Fathers and making gifts for his special day. Have a great summer!
Ms. Hope

PeeWee's Classroom

The school year is finally coming to an end and we would like to thank all the parents who help make our classroom better each day and everyday. What a better way to celebrate the end of the year than with a Luau!! A letter with more details will be sent home soon. Did you know that June is National Fruit & Vegetable month? Every week in the month of June we will introduce a new fruit and/or vegetable. Please inform us if your child has any food allergies. To continue with the theme for this month we will discuss common fruits and veggies. If you have any exotic & yummy ideas please let us know. Also if you would like to donate food for this month's theme please see Mrs. Claudia for arrangements. Any help would be greatly appreciated.

Mrs. Claudia & Ms. Irene
